

FM1500 V

High speed single disc machine

Suitable for all restoration operations and dry polishing, equipped with an exceptional balancing system, making the machine extremely easy to use, with no operator fatigue. Powerful, oversized motor.

Ideal for service companies, cleaning of hotels and convention centres.

- Guaranteed brilliant results on all surfaces: the gas spring helps maintaining constant brush pressure on the floor, regardless of the position of the steering column
- With the dust collection system as standard: with the rotational movement of the buffer the dust is conveyed into a convenient and easy to replace collection bag
- No service required thanks to the direct drive, thus resulting in significant economic savings over time
- Silent, allowing it to be used in sensitive environments

TECHNICAL DATA		FM1500 V
Drive	-	Direct
Working width	cm	50
Brush Ø	cm	50
Brush rotations	rpm	1500
Power supply	V/Hz	230/50
